Subject Index

Acetaldehyde
Personal Exposure Levels and Microenvironmental Concentrations of Formaldehyde and Acetaldehyde in the Helsinki Metropolitan Area, Finland, 17

Acid Deposition
Do We Understand Trends in Atmospheric Sulfur Species?, 1561

Acidic Gases
The Capture of Heavy Metals from Incineration Using a Spray Dryer Integrated with a Fabric Filter Using Various Additives, 983

Acidity
Dissociation of Sulfur Hexafluoride Tracer Gas in the Presence of an Indoor Combustion Source, 616

Activated Carbon
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
Carbon Bed Fires and the Use of Carbon Canisters for Air Emissions Control on Fixed-Roof Tanks, 1617

Additives
The Capture of Heavy Metals from Incineration Using a Spray Dryer Integrated with a Fabric Filter Using Various Additives, 983

Administration
Municipal Solid Waste Characteristics and Management in China, 250

Adsorption
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750

Aerosols
Chemical Composition and Source Apportionment of $PM_{2.5}$ Particles in the Sihwa Area, Korea, 393
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Chemical Characterization of Emissions from Vegetable Oil Processing and Their Contribution to Aerosol Mass Using the Organic Molecular Markers Approach, 552
Black Carbon Aerosol at McMurdo Station, Antarctica, 593
Dissociation of Sulfur Hexafluoride Tracer Gas in the Presence of an Indoor Combustion Source, 616
Investigation of the Potential Antimicrobial Efficacy of Sealants Used in HVAC Systems, 1219
Determination of Fine Particulate Semi-Volatile Organic Material at Three Eastern U.S. Sampling Sites, 1302
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309
Regional Variations in Sulfate and Nitrate on Annual, Seasonal, and Synoptic Time Scales, 1339
Rates of Conversion of Sulfur Dioxide to Sulfate in a Scrubbed Power Plant Plume, 1408
Laboratory and Field Evaluation of Measurement Methods for One-Hour Exposures to O_3, $PM_{2.5}$, and CO, 1414
Current Status of Air Quality Models for Particulate Matter, 1508
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

Agriculture
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451

Air Pollution
Assessment of Opacimeter Calibration According to International Standard Organization 10155, 3
Oxidation of Gas Mixtures Containing Dimethyl Sulfide, Hydrogen Sulfide, and Methanethiol Using a Two-Stage Biotrickling Filter, 11
Personal Exposure Levels and Microenvironmental Concentrations of Formaldehyde and Acetaldehyde in the Helsinki Metropolitan Area, Finland, 17
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Development and Performance of an Alternative Biofilter System, 78
Air Sampling and Analysis of Volatile Organic Compounds with Solid Phase Microextraction, 173
Pollution Atmosphérique et Santé: Corrélation ou Causalité? Le Cas de la Relation entre l'Exposition aux Particules et la Mortalité Cardio-pulmonaire, 203
Air Pollution and Health: Correlation or Causality? The Case of the Relationship between Exposure to Particles and Cardiopulmonary Mortality, 220
Air Emission Flux from Contaminated Dredged Materials Stored in a Pilot-Scale Confined Disposal Facility, 361
Residential Proximity to Industrial Sources of Air Pollution: Interrelationships among Race, Poverty, and Age, 406
A Chassis Test Procedure to Mimic the Heavy-Duty Engine Transient Emissions Certification Test, 432
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Chemical Characterization of Emissions from Vegetable Oil Processing and Their Contribution to Aerosol Mass Using the Organic Molecular Markers Approach, 552
Methodologies for Estimating Disaggregated Anthropogenic Emissions—Application to a Coastal Mediterranean Region of Spain, 642
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688
Removal of Hydrogen Sulfide Gas and Landfill Leachate Treatment Using Coal Bottom Ash, 939
A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962
An Extended Self-Organizing Map Network for Modeling and Control of Pulse Jet Fabric Filters, 1035
Sensitivity Analysis and Evaluation of MicroFacCO: A Microscale Motor Vehicle Emission Factor Model for CO Emissions, 1087
A Characterization of Solution Gas Flaring in Alberta, 1167
Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309

Subject Index

Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309

Aldehyde and Monocyclic Aromatic Hydrocarbon Mixing Ratios at an Urban Site in Las Vegas, Nevada, 1359
Prospects of Inspection and Maintenance of Two-Wheelers in India, 1391
Current Status of Air Quality Models for Particulate Matter, 1508
Emission-Strength Validation Using Four-Dimensional Data Assimilation: Application to Primary Aerosol and Precursors to Ozone and Secondary Aerosol, 1538
Evaluation of Human Exposure to Ambient PM in the Metropolitan Area of Mexico City Using a GIS-Based Methodology, 1586
Microwave Process for Volatile Organic Compound Abatement, 1628
Biofiltration of a Mixture of Volatile Organic Emissions, 1662
Ethylbenzene Removal in a Multiple-Stage Biofilter, 1689

Air Pollution Control
Carbon Bed Fires and the Use of Carbon Canisters for Air Emissions Control on Fixed-Roof Tanks, 1617

Air Pollution Standards
Assessment of Opacimeter Calibration According to International Standard Organization 10155, 3
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861

Air Quality
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Air Sampling and Analysis of Volatile Organic Compounds with Solid Phase Microextraction, 173
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273
Ozone Air Quality over North America: Part II—An Analysis of Trend Detection and Attribution Techniques, 283
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Application of a Wind Model for the El Paso-Juarez Airshed, 669
An Extended Self-Organizing Map Network for Modeling and Control of Pulse Jet Fabric Filters, 1035
Toxic Emissions from Mobile Sources: A Total Fuel-Cycle Analysis for Conventional and Alternative Fuel Vehicles, 1073
Monitoring and Source Apportionment of Particulate Matter near a Large Phosphorus Production Facility, 1142
Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
Ozone Predictions in Atlanta, Georgia: Analysis of the 1999 Ozone Season, 1227
Determination of Fine Particulate Semi-Volatile Organic Material at Three Eastern U.S. Sampling Sites, 1302
The Use of Indoor Air Measurements To Evaluate Intrusion of Subsurface VOC Vapors into Buildings, 1318
Current Status of Air Quality Models for Particulate Matter, 1508
Evaluation of Human Exposure to Ambient PM in the Metropolitan Area of Mexico City Using a GIS-Based Methodology, 1586

Air Quality Management
Ozone Air Quality over North America: Part II—An Analysis of Trend Detection and Attribution Techniques, 283

Air Quality Modeling
Demonstrating Attainment of the Air Quality Standards: Integration of Observations and Model Predictions into the Probabilistic Framework, 1060

Air Quality Standards
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273
A Comparison of Measured and Simulated Ozone Concentrations in the Rural Areas of the Eastern United States during Summer 1995, 374
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861
Demonstrating Attainment of the Air Quality Standards: Integration of Observations and Model Predictions into the Probabilistic Framework, 1060
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280
The Use of Indoor Air Measurements To Evaluate Intrusion of Subsurface VOC Vapors into Buildings, 1318

Air Quality Studies
An Assessment of the Impact of California's Phase 2 Reformulated Gasoline on Ozone Air Quality, 37
Measurements of Sulfur Dioxide and Formaldehyde in Taipei Using a Differential Optical Absorption Spectrometer, 94
Comparison of Real-Time Instruments Used To Monitor Airborne Particulate Matter, 109
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Analysis of Atmospheric Conditions during Air Pollution Episodes in Ankara, Turkey, 972
Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
The Use of Indoor Air Measurements To Evaluate Intrusion of Subsurface VOC Vapors into Buildings, 1318
Analysis of Temporal and Spatial Dichotomous PM Air Samples in the El Paso-Cd. Juarez Air Quality Basin, 1551

Air Sources
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Analysis of Air Toxics Emission Inventory: Inhalation Toxicity-Based Ranking, 1129

Air Toxics
The MMT Bag for Emission Source Sampling: Design and Evaluation, 60
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688
The Use of a Multimedia Risk Analysis Approach in Designing Waste Management Strategies, 742
A Study of Gas-Phase Mercury Speciation Using Detailed Chemical Kinetics, 869
A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962
Toxic Emissions from Mobile Sources: A Total Fuel-Cycle Analysis for Conventional and Alternative Fuel Vehicles, 1073
Analysis of Air Toxics Emission Inventory: Inhalation Toxicity-Based Ranking, 1129
Aldehyde and Monocyclic Aromatic Hydrocarbon Mixing Ratios at an Urban Site in Las Vegas, Nevada, 1359
Microwave Process for Volatile Organic Compound Abatement, 1628
Combined PCDD/F Destruction and Particulate Control in a Baghouse: Experience with a Catalytic Filter System at a Medical Waste Incineration Plant, 1642

Aldehyde
Aldehyde and Monocyclic Aromatic Hydrocarbon Mixing Ratios at an Urban Site in Las Vegas, Nevada, 1359

Alternative Fuels
Toxic Emissions from Mobile Sources: A Total Fuel-Cycle Analysis for Conventional and Alternative Fuel Vehicles, 1073

Alternative/Innovative Technologies
Development and Performance of an Alternative Biofilter System, 78
Microwave Process for Volatile Organic Compound Abatement, 1628

Ambient Air
A Procedure for Use in Estimating Human Exposure to Particulate Matter of Ambient Origin, 7
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
The Influence of Human Activity Patterns on Personal PM Exposure: A Comparative Analysis of Filter-Based and Continuous Particle Measurements, 1271
Determination of Fine Particulate Semi-Volatile Organic Material at Three Eastern U.S. Sampling Sites, 1302
The Nonlinearity and Related Band Strength of Carbon Monoxide When Applied in Ambient Air Measurement Using Open Long-Path Fourier Transform Infrared Spectrometry, 1332
Analysis of Temporal and Spatial Dichotomous PM Air Samples in the El Paso-Cd. Juarez Air Quality Basin, 1551

Ambient Air Quality Standards
Comparison of Real-Time Instruments Used To Monitor Airborne Particulate Matter, 109
A Comparison of Measured and Simulated Ozone Concentrations in the Rural Areas of the Eastern United States during Summer 1995, 374
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280

Ambient Concentrations
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Measurements of Sulfur Dioxide and Formaldehyde in Taipei Using a Differential Optical Absorption Spectrometer, 94
Evaluation of Health and Safety Risks in Municipal Solid Waste Recycling Plants, 352
A Comparison of Measured and Simulated Ozone Concentrations in the Rural Areas of the Eastern United States during Summer 1995, 374
Chemical Composition and Source Apportionment of $PM_{2.5}$ Particles in the Sihwa Area, Korea, 393
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309
Regional Variations in Sulfate and Nitrate on Annual, Seasonal, and Synoptic Time Scales, 1339
Aldehyde and Monocyclic Aromatic Hydrocarbon Mixing Ratios at an Urban Site in Las Vegas, Nevada, 1359

Ammonia
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756

Analytical Methods
Assessment of Opacimeter Calibration According to International Standard Organization 10155, 3
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Measurements of Sulfur Dioxide and Formaldehyde in Taipei Using a Differential Optical Absorption Spectrometer, 94
Air Sampling and Analysis of Volatile Organic Compounds with Solid Phase Microextraction, 173
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861
A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962
Monitoring Odorous Sulfur Emissions Using Self-Organizing Maps for Handling Ion Mobility Spectrometry Data, 966
Development of Emission Factors for Polyamide Processing, 1001

Antimicrobial
Investigation of the Potential Antimicrobial Efficacy of Sealants Used in HVAC Systems, 1219

Applications
The MMT Bag for Emission Source Sampling: Design and Evaluation, 60

Ash, Bottom
Removal of Hydrogen Sulfide Gas and Landfill Leachate Treatment Using Coal Bottom Ash, 939

Atmospheric Chemistry
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Air Emission Flux from Contaminated Dredged Materials Stored in a Pilot-Scale Confined Disposal Facility, 361
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
Modeling the Effects of VOC/NO_x Emissions on Ozone Synthesis in the Cascadia Airshed of the Pacific Northwest, 1021

Attainment Demonstrations
Demonstrating Attainment of the Air Quality Standards: Integration of Observations and Model Predictions into the Probabilistic Framework, 1060

Automotive Exhaust
Observations and Model Simulations of Carbon Monoxide Emission Factors from a California Highway, 121
Real-World Vehicle Emissions: A Summary of the Tenth Coordinating Research Council On-Road Vehicle Emissions Workshop, 236
A Chassis Test Procedure to Mimic the Heavy-Duty Engine Transient Emissions Certification Test, 432
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
Time-Series Analysis of Above-Road Particulate Matter at the Caldecott Tunnel Exit, 601
Assessment of Vehicular Pollution in China, 658
A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962

Backwashing
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756

Bacteria
The Importance of Pathogenic Organisms in Sewage and Sewage Sludge, 848

Baghouse
An Extended Self-Organizing Map Network for Modeling and Control of Pulse Jet Fabric Filters, 1035
Reducing Pressure Drop in a Baghouse Using Flow Distributors, 1471
Combined PCDD/F Destruction and Particulate Control in a Baghouse: Experience with a Catalytic Filter System at a Medical Waste Incineration Plant, 1642

Bark
Removal of Hydrocarbons from Wastewater Using Treated Bark, 1351

Batch Biofiltration
Development and Performance of an Alternative Biofilter System, 78
Biotreatment of Hydrogen Sulfide- and Ammonia-Containing Waste Gases by Fluidized Bed Bioreactor, 163
Ethylbenzene Removal in a Multiple-Stage Biofilter, 1689

Benzene
Exposure to Methyl Tertiary Butyl Ether and Benzene in Close Proximity to Service Stations, 1122

Biodegradation
Sorption and Biodegradation of Vapor-Phase Organic Compounds with Wastewater Sludge and Food Waste Compost, 1237

Biofilter
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756
Sorption and Biodegradation of Vapor-Phase Organic Compounds with Wastewater Sludge and Food Waste Compost, 1237

Biofiltration
Oxidation of Gas Mixtures Containing Dimethyl Sulfide, Hydrogen Sulfide, and Methanethiol Using a Two-Stage Biotrickling Filter, 11
Carbon Disulfide and Hydrogen Sulfide Removal with a Peat Biofilter, 387
A Fungal Vapor-Phase Bioreactor for the Removal of Nitric Oxide from Waste Gas Streams, 895

Biomass
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756

Bioventing
Biotreatment of Hydrogen Sulfide- and Ammonia-Containing Waste Gases by Fluidized Bed Bioreactor, 163

Black Carbon
Analysis of Temporal and Spatial Dichotomous PM Air Samples in the El Paso-Cd. Juarez Air Quality Basin, 1551

Black Cherry
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280

Blood Lead
Characterization of Fugitive Material within a Primary Lead Smelter, 1443

Bootstrap
Demonstrating Attainment of the Air Quality Standards: Integration of Observations and Model Predictions into the Probabilistic Framework, 1060

Calculation Methods
Air Emission Flux from Contaminated Dredged Materials Stored in a Pilot-Scale Confined Disposal Facility, 361

Cancer Risk
Health Effects of Waste Incineration: A Review of Epidemiologic Studies, 1100

Carbon Adsorption Systems
Carbon Bed Fires and the Use of Carbon Canisters for Air Emissions Control on Fixed-Roof Tanks, 1617

Carbon Bed Fires
Carbon Bed Fires and the Use of Carbon Canisters for Air Emissions Control on Fixed-Roof Tanks, 1617

Carbon Canisters
Carbon Bed Fires and the Use of Carbon Canisters for Air Emissions Control on Fixed-Roof Tanks, 1617

Carbon Dioxide
The MMT Bag for Emission Source Sampling: Design and Evaluation, 60
A Chassis Test Procedure to Mimic the Heavy-Duty Engine Transient Emissions Certification Test, 432
Electricity from Fossil Fuels without CO_2 Emissions: Assessing the Costs of Carbon Dioxide Capture and Sequestration in U.S. Electricity Markets, 1452

Carbon Monoxide
The MMT Bag for Emission Source Sampling: Design and Evaluation, 60
Observations and Model Simulations of Carbon Monoxide Emission Factors from a California Highway, 121
A Chassis Test Procedure to Mimic the Heavy-Duty Engine Transient Emissions Certification Test, 432
Incineration of Paper Sludge in a Prototype Vortexing Fluidized Bed Combustor, 542
A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962
Sensitivity Analysis and Evaluation of MicroFacCO: A Microscale Motor Vehicle Emission Factor Model for CO Emissions, 1087
The Nonlinearity and Related Band Strength of Carbon Monoxide When Applied in Ambient Air Measurement Using Open Long-Path Fourier Transform Infrared Spectrometry, 1332
Indoor Pollutant Levels from the Use of Unvented Natural Gas Fireplaces in Boulder, Colorado, 1654

Carcinogens
Toxic Emissions from Mobile Sources: A Total Fuel-Cycle Analysis for Conventional and Alternative Fuel Vehicles, 1073

Catalytic Conversion
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
Combined PCDD/F Destruction and Particulate Control in a Baghouse: Experience with a Catalytic Filter System at a Medical Waste Incineration Plant, 1642

Catalytic Incineration
The Kinetics of Catalytic Incineration of Dimethyl Sulfide and Dimethyl Disulfide over an MnO/Fe_2O_3 Catalyst, 574

Characterization
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
Municipal Solid Waste Characteristics and Management in China, 250
Chemical Composition and Source Apportionment of $PM_{2.5}$ Particles in the Sihwa Area, Korea, 393
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
A Characterization of Solution Gas Flaring in Alberta, 1167
Measuring Concentrations of Volatile Organic Compounds in Vinyl Flooring, 1195
Analysis of Temporal and Spatial Dichotomous PM Air Samples in the El Paso-Cd. Juarez Air Quality Basin, 1551

Children
Residential Proximity to Industrial Sources of Air Pollution: Interrelationships among Race, Poverty, and Age, 406

Clean Air Act Amendments
Development of Emission Factors for Polyamide Processing, 1001

Climate Change
Greenhouse Gas Dynamics of Municipal Solid Waste Alternatives, 1423

Cluster Analysis
Multivariate Space Analysis of the Major Precipitation Ions over Europe, 1986-1997, 1346

Combustion
The MMT Bag for Emission Source Sampling: Design and Evaluation, 60
Urea as a PCDD/F Inhibitor in Municipal Waste Incineration, 422
Incineration of Paper Sludge in a Prototype Vortexing Fluidized Bed Combustor, 542
Chemical Characterization of Emissions from Vegetable Oil Processing and Their Contribution to Aerosol Mass Using the Organic Molecular Markers Approach, 552
Black Carbon Aerosol at McMurdo Station, Antarctica, 593
Dissociation of Sulfur Hexafluoride Tracer Gas in the Presence of an Indoor Combustion Source, 616
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688
A Study of Gas-Phase Mercury Speciation Using Detailed Chemical Kinetics, 869
Combustion Modeling and Performance Evaluation in a Full-Scale Rotary Kiln Incinerator, 885
A Characterization of Solution Gas Flaring in Alberta, 1167

Combustion Efficiency
Theoretical and Observational Assessments of Flare Efficiencies, 1610

Compliance
Development of Emission Factors for Polyamide Processing, 1001
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309

Composted Food Waste
Sorption and Biodegradation of Vapor-Phase Organic Compounds with Wastewater Sludge and Food Waste Compost, 1237

Composting
Remedial Strategies for Municipal Solid Waste Management in China, 264

Compound Interactions
Removal of Hydrocarbons from Wastewater Using Treated Bark, 1351

Contaminated Soil
Air Emission Flux from Contaminated Dredged Materials Stored in a Pilot-Scale Confined Disposal Facility, 361
Investigation of Polychlorinated Biphenyl Removal from Contaminated Soil Using Microwave-Generated Steam, 482

Continuous Emission Monitoring
Assessment of Opacimeter Calibration According to International Standard Organization 10155, 3
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861
Monitoring Odorous Sulfur Emissions Using Self-Organizing Maps for Handling Ion Mobility Spectrometry Data, 966
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309
Tetrachloroethylene Emissions and Exposure in Dry Cleaning, 1671

Control Strategies
An Extended Self-Organizing Map Network for Modeling and Control of Pulse Jet Fabric Filters, 1035
A Characterization of Solution Gas Flaring in Alberta, 1167

Control Technologies
Oxidation of Gas Mixtures Containing Dimethyl Sulfide, Hydrogen Sulfide, and Methanethiol Using a Two-Stage Biotrickling Filter, 11
Carbon Disulfide and Hydrogen Sulfide Removal with a Peat Biofilter, 387
The Use of a Multimedia Risk Analysis Approach in Designing Waste Management Strategies, 742
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
An Extended Self-Organizing Map Network for Modeling and Control of Pulse Jet Fabric Filters, 1035
Reducing Pressure Drop in a Baghouse Using Flow Distributors, 1471
Microwave Process for Volatile Organic Compound Abatement, 1628
Tetrachloroethylene Emissions and Exposure in Dry Cleaning, 1671
Flue Gas Desulfurization: The State of the Art, 1676
Ethylbenzene Removal in a Multiple-Stage Biofilter, 1689

Correlation
Correlation of PCDD/F Emissions with Operating Parameters of Municipal Solid Waste Incinerators, 718

Costs
Preliminary Estimates of Performance and Cost of Mercury Control Technology Applications on Electric Utility Boilers, 1460
Flue Gas Desulfurization: The State of the Art, 1676

Data Collection
A Characterization of Solution Gas Flaring in Alberta, 1167
Prospects of Inspection and Maintenance of Two-Wheelers in India, 1391

Data Fusion
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

Data Quality
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688

Decision Making
The Use of a Multimedia Risk Analysis Approach in Designing Waste Management Strategies, 742
Analysis of Atmospheric Conditions during Air Pollution Episodes in Ankara, Turkey, 972
Do We Understand Trends in Atmospheric Sulfur Species?, 1561

Dermal Exposures
Movement and Deposition of Two Organophosphorus Pesticides within a Residence after Interior and Exterior Applications, 339

Destruction and Removal Efficiencies
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
Ethylbenzene Removal in a Multiple-Stage Biofilter, 1689

Developing Countries
Prospects of Inspection and Maintenance of Two-Wheelers in India, 1391

Diffusion Flame
Theoretical and Observational Assessments of Flare Efficiencies, 1610

Dimethyl Disulfide
The Kinetics of Catalytic Incineration of Dimethyl Sulfide and Dimethyl Disulfide over an MnO/Fe_2O_3 Catalyst, 574

Dimethyl Sulfide
The Kinetics of Catalytic Incineration of Dimethyl Sulfide and Dimethyl Disulfide over an MnO/Fe_2O_3 Catalyst, 574

Dioxin Formation
Combined PCDD/F Destruction and Particulate Control in a Baghouse: Experience with a Catalytic Filter System at a Medical Waste Incineration Plant, 1642

Dioxins
Correlation of PCDD/F Emissions with Operating Parameters of Municipal Solid Waste Incinerators, 718

Dispersion Model
Observations and Model Simulations of Carbon Monoxide Emission Factors from a California Highway, 121

Driving Cycles
An Outline of the 1994-1998 European Inspection and Maintenance Study: Part I—Design, Tests, and Results of Experimental Methods, 913

Dry Cleaning
Tetrachloroethylene Emissions and Exposure in Dry Cleaning, 1671

Dust
Movement and Deposition of Two Organophosphorus Pesticides within a Residence after Interior and Exterior Applications, 339
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

Dust, Fugitive
Hydrolysis and Heat Treatment of Aluminum Dust, 903
Characterization of Fugitive Material within a Primary Lead Smelter, 1443

EBRT
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756

Economics
Electricity from Fossil Fuels without CO_2 Emissions: Assessing the Costs of Carbon Dioxide Capture and Sequestration in U.S. Electricity Markets, 1452
Cost-Effective Reduction of NO_x Emissions from Electricity Generation, 1476

A Fungal Vapor-Phase Bioreactor for the Removal of Nitric Oxide from Waste Gas Streams, 895
Modeling the Effects of VOC/NO_x Emissions on Ozone Synthesis in the Cascadia Airshed of the Pacific Northwest, 1021
Regional Variations in Sulfate and Nitrate on Annual, Seasonal, and Synoptic Time Scales, 1339
Cost-Effective Reduction of NO_x Emissions from Electricity Generation, 1476

Nonmethane Hydrocarbons
Characterization of the Reactivities of Volatile Organic Compounds Using a Master Chemical Mechanism, 699
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861

Nonmethane Organic Compounds
Characterization of the Reactivities of Volatile Organic Compounds Using a Master Chemical Mechanism, 699

NO_x Trends
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273

Odors
Oxidation of Gas Mixtures Containing Dimethyl Sulfide, Hydrogen Sulfide, and Methanethiol Using a Two-Stage Biotrickling Filter, 11
Development and Performance of an Alternative Biofilter System, 78
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
Monitoring Odorous Sulfur Emissions Using Self-Organizing Maps for Handling Ion Mobility Spectrometry Data, 966
Biofiltration of a Mixture of Volatile Organic Emissions, 1662

Operating Parameters
Correlation of PCDD/F Emissions with Operating Parameters of Municipal Solid Waste Incinerators, 718

Organic Chemical
Health Effects of Waste Incineration: A Review of Epidemiologic Studies, 1100

Ozone
An Assessment of the Impact of California's Phase 2 Reformulated Gasoline on Ozone Air Quality, 37
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273
Application of a Wind Model for the El Paso-Juarez Airshed, 669
Ozone Injection into an Activated Carbon Bed to Remove Hydrogen Sulfide in the Presence of Concurrent Substances, 750
Modeling the Effects of VOC/NO_x Emissions on Ozone Synthesis in the Cascadia Airshed of the Pacific Northwest, 1021
Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
Ozone Predictions in Atlanta, Georgia: Analysis of the 1999 Ozone Season, 1227

Ozone, Boundary Layer
Characterization of the Reactivities of Volatile Organic Compounds Using a Master Chemical Mechanism, 699
Ozone Predictions in Atlanta, Georgia: Analysis of the 1999 Ozone Season, 1227

Ozone Formation
Characterization of the Reactivities of Volatile Organic Compounds Using a Master Chemical Mechanism, 699

Ozone Prediction
Ozone Predictions in Atlanta, Georgia: Analysis of the 1999 Ozone Season, 1227

Ozone Trends
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273

Ozone, Tropospheric
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
A Comparison of Measured and Simulated Ozone Concentrations in the Rural Areas of the Eastern United States during Summer 1995, 374
Artificial Neural Network-Derived Trends in Daily Maximum Surface Ozone Concentrations, 1202
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280

Particle Size Distribution
The Capture of Heavy Metals from Incineration Using a Spray Dryer Integrated with a Fabric Filter Using Various Additives, 983
A Comparison of Tailpipe, Dilution Tunnel, and Wind Tunnel Data in Measuring Motor Vehicle PM, 1529

Particulate Matter
A Procedure for Use in Estimating Human Exposure to Particulate Matter of Ambient Origin, 7

The Influence of Human Activity Patterns on Personal PM Exposure: A Comparative Analysis of Filter-Based and Continuous Particle Measurements, 1271
A Cost-Effective Weighing Chamber for Particulate Matter Filters, 1650

Passive Samplers
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280
Tetrachloroethylene Emissions and Exposure in Dry Cleaning, 1671

Pathogens
The Importance of Pathogenic Organisms in Sewage and Sewage Sludge, 848

Peat
Carbon Disulfide and Hydrogen Sulfide Removal with a Peat Biofilter, 387

Permitting
Development of Emission Factors for Polyamide Processing, 1001

Pesticides
Movement and Deposition of Two Organophosphorus Pesticides within a Residence after Interior and Exterior Applications, 339

Phosphorus
Monitoring and Source Apportionment of Particulate Matter near a Large Phosphorus Production Facility, 1142

Photochemical Pollutants
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
Characterization of the Reactivities of Volatile Organic Compounds Using a Master Chemical Mechanism, 699

Photocopiers
Variations in the Emissions of Volatile Organic Compounds from the Toner for a Specific Photocopier, 708

Plant Response
A 13-Week Comparison of Passive and Continuous Ozone Monitors at Forested Sites in North-Central Pennsylvania, 1280

Plumes
Rates of Conversion of Sulfur Dioxide to Sulfate in a Scrubbed Power Plant Plume, 1408
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

$PM_{2.5}$
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Comparison of Real-Time Instruments Used To Monitor Airborne Particulate Matter, 109
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
Removal of Ammonia from Contaminated Air by Trickle Bed Air Biofilters, 756
The Influence of Human Activity Patterns on Personal PM Exposure: A Comparative Analysis of Filter-Based and Continuous Particle Measurements, 1271
Laboratory and Field Evaluation of Measurement Methods for One-Hour Exposures to O_3, $PM_{2.5}$, and CO, 1414
Analysis of Temporal and Spatial Dichotomous PM Air Samples in the El Paso-Cd. Juarez Air Quality Basin, 1551

PM_{10}
A Procedure for Use in Estimating Human Exposure to Particulate Matter of Ambient Origin, 7
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25
Comparison of Real-Time Instruments Used To Monitor Airborne Particulate Matter, 109
Pollution Atmosphérique et Santé: Corrélation ou Causalité? Le Cas de la Relation entre l'Exposition aux Particules et la Mortalité Cardio-pulmonaire, 203
Air Pollution and Health: Correlation or Causality? The Case of the Relationship between Exposure to Particles and Cardiopulmonary Mortality, 220
A Chassis Test Procedure to Mimic the Heavy-Duty Engine Transient Emissions Certification Test, 432
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Time-Series Analysis of Above-Road Particulate Matter at the Caldecott Tunnel Exit, 601

Development and Evaluation of an Impactor for a $PM_{2.5}$ Speciation Sampler, 514
Issues Related to Solution Chemistry in Mercury Sampling Impingers, 688
Development and Evaluation of a Continuous Coarse (PM_{10}-$PM_{2.5}$) Particle Monitor, 1309
Laboratory and Field Evaluation of Measurement Methods for One-Hour Exposures to O_3, $PM_{2.5}$, and CO, 1414

Satellite Imagery
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

Scrubbers
Flue Gas Desulfurization: The State of the Art, 1676

Season
Exposure to Methyl Tertiary Butyl Ether and Benzene in Close Proximity to Service Stations, 1122

Seasonal Effects
Regional Variations in Sulfate and Nitrate on Annual, Seasonal, and Synoptic Time Scales, 1339

Semi-Volatile
Semi-Volatile Species in $PM_{2.5}$: Comparison of Integrated and Continuous Samplers for $PM_{2.5}$ Research or Monitoring, 25

Service Fee System
Remedial Strategies for Municipal Solid Waste Management in China, 264

Service Station
Exposure to Methyl Tertiary Butyl Ether and Benzene in Close Proximity to Service Stations, 1122

Sewage Sludge
The Importance of Pathogenic Organisms in Sewage and Sewage Sludge, 848

Short Tests
An Outline of the 1994-1998 European Inspection and Maintenance Study: Part I—Design, Tests, and Results of Experimental Methods, 913

Sludge
Sorption and Biodegradation of Vapor-Phase Organic Compounds with Wastewater Sludge and Food Waste Compost, 1237

Smoke
Fusion of SeaWiFS and TOMS Satellite Data with Surface Observations and Topographic Data during Extreme Aerosol Events, 1579

Smoke Abatement
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443

Soil
Theory and Laboratory Study of a Tall Passive Chamber for Measuring Gas Fluxes at Soil Surface, 49
EDTA-Enhanced Extraction of Heavy Metals from a Coarse Grained Simulated Soil by the CEHIXM Process, 1178

Contents and Leachability of Heavy Metals (Pb, Cu, Sb, Zn, As) in Soil at the Pantex Firing Range, Amarillo, Texas, 1428

Soil Chemistry
Deposition of Mn from Automotive Combustion of Methylcyclopentadienyl Manganese Tricarbonyl beside the Major Highways in the Greater Toronto Area, Canada, 1288

Soil Gas
Theory and Laboratory Study of a Tall Passive Chamber for Measuring Gas Fluxes at Soil Surface, 49
The Use of Indoor Air Measurements To Evaluate Intrusion of Subsurface VOC Vapors into Buildings, 1318

Soil Remediation/ Decontamination
EDTA-Enhanced Extraction of Heavy Metals from a Coarse Grained Simulated Soil by the CEHIXM Process, 1178

Soil Surface
Theory and Laboratory Study of a Tall Passive Chamber for Measuring Gas Fluxes at Soil Surface, 49
Incineration of Paper Sludge in a Prototype Vortexing Fluidized Bed Combustor, 542

Soil Washing
EDTA-Enhanced Extraction of Heavy Metals from a Coarse Grained Simulated Soil by the CEHIXM Process, 1178

Solid Waste
Evaluation of Health and Safety Risks in Municipal Solid Waste Recycling Plants, 352
Incineration of Paper Sludge in a Prototype Vortexing Fluidized Bed Combustor, 542
Combustion Modeling and Performance Evaluation in a Full-Scale Rotary Kiln Incinerator, 885
Greenhouse Gas Dynamics of Municipal Solid Waste Alternatives, 1423
Contents and Leachability of Heavy Metals (Pb, Cu, Sb, Zn, As) in Soil at the Pantex Firing Range, Amarillo, Texas, 1428

Sorption
Sorption and Biodegradation of Vapor-Phase Organic Compounds with Wastewater Sludge and Food Waste Compost, 1237

Source Profiles
Chemical Composition and Source Apportionment of $PM_{2.5}$ Particles in the Sihwa Area, Korea, 393
Determination of Source Contributions to Ambient $PM_{2.5}$ in Kaohsiung, Taiwan, Using a Receptor Model, 489
Source Profiles of Particulate Matter Emissions from a Pilot-Scale Boiler Burning North American Coal Blends, 1568

Source Separation System
Remedial Strategies for Municipal Solid Waste Management in China, 264

Spirometry
Waste Incineration and Pulmonary Function: An Epidemiologic Study of Six Communities, 1185

Spray Dryer
The Capture of Heavy Metals from Incineration Using a Spray Dryer Integrated with a Fabric Filter Using Various Additives, 983

Stabilization/Solidification
EDTA-Enhanced Extraction of Heavy Metals from a Coarse Grained Simulated Soil by the CEHIXM Process, 1178

State Implementation Plans
Cost-Effective Reduction of NO_x Emissions from Electricity Generation, 1476

Stationary Sources
Methodologies for Estimating Disaggregated Anthropogenic Emissions—Application to a Coastal Mediterranean Region of Spain, 642
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861
Analysis of Air Toxics Emission Inventory: Inhalation Toxicity-Based Ranking, 1129

Statistical Analysis
Ozone Air Quality over North America: Part I—A Review of Reported Trends, 273
Ozone Air Quality over North America: Part II—An Analysis of Trend Detection and Attribution Techniques, 283

Statistical Modeling
An Assessment of the Impact of California's Phase 2 Reformulated Gasoline on Ozone Air Quality, 37

Sulfate
Do We Understand Trends in Atmospheric Sulfur Species?, 1561

Sulfur Dioxide
Measurements of Sulfur Dioxide and Formaldehyde in Taipei Using a Differential Optical Absorption Spectrometer, 94
Dissociation of Sulfur Hexafluoride Tracer Gas in the Presence of an Indoor Combustion Source, 616
Monitoring Odorous Sulfur Emissions Using Self-Organizing Maps for Handling Ion Mobility Spectrometry Data, 966
Analysis of Atmospheric Conditions during Air Pollution Episodes in Ankara, Turkey, 972
Rates of Conversion of Sulfur Dioxide to Sulfate in a Scrubbed Power Plant Plume, 1408
Do We Understand Trends in Atmospheric Sulfur Species?, 1561
Flue Gas Desulfurization: The State of the Art, 1676

Technology Development
Biotreatment of Hydrogen Sulfide- and Ammonia-Containing Waste Gases by Fluidized Bed Bioreactor, 163
Remedial Strategies for Municipal Solid Waste Management in China, 264
Investigation of Polychlorinated Biphenyl Removal from Contaminated Soil Using Microwave-Generated Steam, 482
Laboratory and Field Evaluation of Measurement Methods for One-Hour Exposures to O_3, $PM_{2.5}$, and CO, 1414

Testing
Application and Field Validation of a Continuous Nonmethane Organic Carbon Analyzer, 861

Thermal Treatment
Investigation of Polychlorinated Biphenyl Removal from Contaminated Soil Using Microwave-Generated Steam, 482
Combustion Modeling and Performance Evaluation in a Full-Scale Rotary Kiln Incinerator, 885

Time Series Analysis
Ozone Air Quality over North America: Part II—An Analysis of Trend Detection and Attribution Techniques, 283

Toners
Variations in the Emissions of Volatile Organic Compounds from the Toner for a Specific Photocopier, 708

Toxic Air Pollutants
Theory and Laboratory Study of a Tali Passive Chamber for Measuring Gas Fluxes at Soil Surface, 49
Carbon Disulfide and Hydrogen Sulfide Removal with a Peat Biofilter, 387
Smoke Impacts from Agricultural Burning in a Rural Brazilian Town, 443
Hydrolysis and Heat Treatment of Aluminum Dust, 903

A Portable Fiber-Optic Chemical Device for the Quantitative Determination of Carbon Monoxide from Automobile Exhaust Emissions, 962
Speciated Hydrocarbon and Carbon Monoxide Emissions from an Internal Combustion Engine Operating on Methyl Tertiary Butyl Ether-Containing Fuels, 992
Toxic Emissions from Mobile Sources: A Total Fuel-Cycle Analysis for Conventional and Alternative Fuel Vehicles, 1073
Analysis of Air Toxics Emission Inventory: Inhalation Toxicity-Based Ranking, 1129
Combined PCDD/F Destruction and Particulate Control in a Baghouse: Experience with a Catalytic Filter System at a Medical Waste Incineration Plant, 1642

Toxic Gases
Carbon Disulfide and Hydrogen Sulfide Removal with a Peat Biofilter, 387
Hydrolysis and Heat Treatment of Aluminum Dust, 903

Toxic Metals
Source Apportionment of PM_{10} and $PM_{2.5}$ in Five Chilean Cities Using Factor Analysis, 451
Hydrolysis and Heat Treatment of Aluminum Dust, 903
Contents and Leachability of Heavy Metals (Pb, Cu, Sb, Zn, As) in Soil at the Pantex Firing Range, Amarillo, Texas, 1428

Toxicology
Pollution Atmosphérique et Santé: Corrélation ou Causalité? Le Cas de la Relation entre l'Exposition aux Particules et la Mortalité Cardiopulmonaire, 203

Waste Reduction
Evaluation of Health and Safety Risks in Municipal Solid Waste Recycling Plants, 352
Investigation of Polychlorinated Biphenyl Removal from Contaminated Soil Using Microwave-Generated Steam, 482

Waste Refuse
Forecasting Generation of Urban Solid Waste in Developing Countries—A Case Study in Mexico, 86

Waste Treatment
Evaluation of Health and Safety Risks in Municipal Solid Waste Recycling Plants, 352
Investigation of Polychlorinated Biphenyl Removal from Contaminated Soil Using Microwave-Generated Steam, 482
Incineration of Paper Sludge in a Prototype Vortexing Fluidized Bed Combustor, 542
Combustion Modeling and Performance Evaluation in a Full-Scale Rotary Kiln Incinerator, 885
Hydrolysis and Heat Treatment of Aluminum Dust, 903
Removal of Hydrocarbons from Wastewater Using Treated Bark, 1351

Wastewater
Removal of Hydrocarbons from Wastewater Using Treated Bark, 1351

Weighing Chambers
A Cost-Effective Weighing Chamber for Particulate Matter Filters, 1650

Wind Conditions
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
Application of a Wind Model for the El Paso-Juarez Airshed, 669

Wind Effects
Meteorological Effects on the Evolution of High Ozone Episodes in the Greater Seoul Area, 185
Application of a Wind Model for the El Paso-Juarez Airshed, 669

Zooparasites
The Importance of Pathogenic Organisms in Sewage and Sewage Sludge, 848

Just Announced...

U.S. EPA's National Air Quality Conference

February 3-6, 2002
Cathedral Hill Hotel
San Francisco, CA

Topics:
- Air Awareness Programs
- Fine Particulate and Ozone Mapping
- Real Time Air Quality
- Data Collection and Transfer
- Media Outreach
- Partnering with Business
- Air Quality and Wildfires
- Communicating Health Effects
- and more...

Registration is free, but space is limited and will be *available on a first-come, first-serve basis*. Airfare, lodging, meals, and other incidentals will be participants' responsibility.

For more information, or to obtain a registration form, visit the A&WMA website *at www.awma.org*, or contact A&WMA member services at 1-800-270-3444

Author Index

Aizpuru, A.
Biofiltration of a Mixture of Volatile Organic Emissions, 1662

Alam, M.K.
Use of Membrane Collectors in Electrostatic Precipitators, 1401

Allen, D.
Effects of Land Use Data on Dry Deposition in a Regional Photochemical Model for Eastern Texas, 1211

Allen, G.A.
Laboratory and Field Evaluation of Measurement Methods of One-Hour Exposures to O_3, $PM_{2.5}$, and CO, 1414

Allen, R.
A Cost-Effective Weighing Chamber for Particulate Matter Filters, 1650

Anderson, M.A.
Theory and Laboratory Study of a Tall Passive Chamber for Measuring Gas Fluxes at Soil Surface, 49

Asikainen, A.
Urea as a PCDD/F Inhibitor in Municipal Waste Incineration, 422

Asolekar, S.R.
Washing of Marine Coastal Sand in a Batch Reactor: Sorption and Desorption of BTEX, 1043

Atwater, J.
The Use of Indoor Air Measurements To Evaluate Intrusion of Subsurface VOC Vapors into Buildings, 1318

Avalos, S.
Long-Term Efficiency of Catalytic Converters Operating in Mexico City, 725

Bae, M.S.
Chemical Composition and Source Apportionment of $PM_{2.5}$ Particles in the Sihwa Area, Korea, 393

Baeyens, J.
Correlation of PCDD/F Emissions with Operating Parameters of Municipal Solid Waste Incinerators, 718

Bai, H.
Biotreatment of Hydrogen Sulfide- and Ammonia-Containing Waste Gases by Fluidized Bed Bioreactor, 163

Bai, Z.
Boiler Briquette Coal versus Raw Coal: Part I—Stack Gas Emissions, 524
Boiler Briquette Coal versus Raw Coal: Part II—Energy, Greenhouse Gas, and Air Quality Implications, 534

Bailey, B.K.
Real-World Vehicle Emissions: A Summary of the Tenth Coordinating Research Council On-Road Vehicle Emissions Workshop, 236

Ballagas, R.
Ozone Predictions in Atlanta, Georgia: Analysis of the 1999 Ozone Season, 1227

Barna, M.
Modeling the Effects of VOC/NO_x Emissions on Ozone Synthesis in the Cascadia Airshed of the Pacific Northwest, 1021

Barnes, J.
Development of Emission Factors for Polyamide Processing, 1001

Barres, O.
Removal of Hydrocarbons from Wastewater Using Treated Bark, 1351

Basunia, S.
Contents and Leachability of Heavy Metals (Pb, Cu, Sb, Zn, As) in Soil at the Pantex Firing Range, Amarillo, Texas, 1428

Bayless, D.J.
Use of Membrane Collectors in Electrostatic Precipitators, 1401

Bharvirkar, R.
Cost-Effective Reduction of NO_x Emissions from Electricity Generation, 1476

Bhuie, A.K.
Deposition of Mn from Automotive Combustion of Methylcyclopentadienyl Manganese Tricarbonyl beside the Major Highways in the Greater Toronto Area, Canada, 1288

Blanchard, F.T.
Movement and Deposition of Two Organophosphorus Pesticides within a Residence after Interior and Exterior Applications, 339
